

Setting the Agenda:

Research Data Management:  
International and Institutional  
Intersections

---

MIHO FUNAMORI

NATIONAL INSTITUTE OF INFORMATICS

NOV.1, 2017

# Lightning talk

---

## □ Institutional aspect

- Edinburgh University—RDM: Edinburgh University Library's Approach
- California Digital Library—Research Data Management at the University of California

## □ International Aspect

- Kyoto Univ—Envisioning RDM Services in 2030
- Purdue University—Towards Global Data Citizenship as an Institution

# Why, Research Data Management ?

---

Accountability  
Public-fund  
**Mandate**

Data Reuse  
Innovation

society

Research  
Transparency  
Reproducibility

Data-intensive  
Science

academic

reactive

proactive

# Issues in RDM

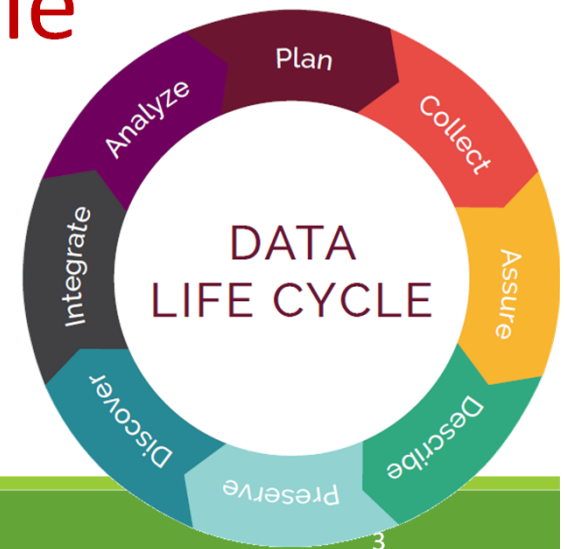

---

## 1. Systemize RDM within institution

- How do we keep the data life cycle workflow going?

## 2. Make research data reusable

- What is the most effective way data get reused?

# RDM: Institutional Aspect

---

- ❑ Institution-wide Policy
- ❑ Faculty buy-in
- ❑ Advocacy
- ❑ Staff training

# RDM: International Aspect

---

- ❑ Interoperability
- ❑ Language-issue
- ❑ Domain vs. Institutional Repository
- ❑ Data location and accessibility
